

3 New Bachelor's Degree Authorized Majors

Recently, Chongqing Academic Degrees Committee issued the notice on *Announcing the List of Newly Added Bachelor Degree Conferment Majors in 2019* (Chongqing Academic Degrees Issue No. 2 [2019]), and approved the addition of three majors, namely taxation, industrial engineering and urban management, as the authorized major of bachelor's degree after school application, material publicity and expert review. Up to now, our college has obtained bachelor's degree awarding qualification for 25 undergraduate majors.

Our college attaches great importance to the examination and verification of the authorization of newly added professional bachelor's degree, and holds special meetings to deploy the work. In strict accordance with the spirit of the superior documents, the application and verification of the authorization of bachelor's degree are carried out step by step through careful and in-depth self-evaluation of each major, expert review, and examination and verification of our Academic Degree Committee.

As the three new bachelor's degree awarding majors were approved, it will play a positive role in promoting the development of our college with distinctive features, optimized structure and reasonable layout. In the future, our school will continue to optimize the structure of the teaching staff, deepen the reform of education and teaching, standardize the teaching management, strengthen the construction of professional connotation, improve the quality of personnel training, refine the professional characteristics, and ensure the quality of degree awarding.
